Font Usage Guide V1.1

Depending on the package you download, you'll see some folders:

Family: It's for general usage.

NoEn: It's suitable for choosing the desired English companion font.

Webfonts: (inside each folder) for use on the website.

Variable: In the variable version, all the weights are in one font file.

Proportional and Tabular numbers

Proportional numbers are spaced so that they are suitable for use within the text; But the spacing in Tabular numbers is suitable for subscribing the numbers in column form and the width of the numbers remains constant when the weight changes.
